

WILL INVESTIGATE THE STATE BANK

COMMITTEE OF FIVE TO EXAMINE AFFAIRS OF THE GOLD-FIELD BRANCH.

GOLDFIELD, Nov. 5.—There was another meeting of the depositors of the State Bank and Trust Company this afternoon, and a committee of five were named to investigate the affairs of the local institution and determine how much is in the strong box. The committee comprises H. W. Boyer, R. J. Shoemaker, R. L. Colburn, C. W. Hayes and C. H. Beesley.

E. T. Patrick was chairman of the meeting and W. Jennings secretary. General Donovan, on behalf of his clients, stated that he had been opposed to the appointment of a receiver, but what was wanted now was the exact information regarding the standing of the bank. His clients, he said, wanted to know whether the bank was in condition to pay according to the agreement outlined by Mr. Rickey. The question for the depositors to decide, he said, was whether they would agree to have their money pooled to pay the demands of the other branches. His clients would not. His argument was that the money in the bank at Goldfield should be used as an asset for the people of Goldfield.

Upon the statement being made that President Rickey would not be here until Thursday, adjournment was taken until 2 p. m. of that day.

Frank Golden, president of the Nye and Ormsby bank was here today, looking into the matter of the attachment on his bank by the MacMillan Company. It is said that an indemnity bond will be furnished by Mr. Golden, and the institution released from the care of Sheriff Ingalls.

FOR ROBBING SLUCE BOXES

Edward Kennedy was arrested on the Manhattan road by Sheriff Owens' men on Monday, and was yesterday shipped back to Round Mountain, charged with robbing the sluice boxes of the Round Mountain Hydraulic Mining Company.

PERSONAL MENTION

L. L. Mudgett has gone to Manhattan for a few days.

Walter Cole, attorney at law, returned from Goldfield yesterday.

Bert L. Smith, the Manhattan banker, went to Manhattan yesterday morning.

Judge W. P. Seeds passed through yesterday morning on his way from Goldfield to Reno.

John J. Mullin, secretary of the Spider and Wasp, made the round trip to Goldfield yesterday.

Lewis Parkhurst leaves this evening for a trip to Salt Lake, where he will be absent for several days.

Arthur Erbes, the well known clubman, bohemian, and wagon manufacturer, returned yesterday afternoon from Reno.

Julian Hiller, one of the most popular knights of the road, dropped in from Goldfield yesterday and immediately the town took on a brighter hue.

Dr. R. J. Mapes, who has been away in the East for the past three weeks, returned on last night's train. He had a very good trip and returns in the best of health and spirits.

"Doc" O'Toole, formerly of Tonopah, and now a resident of Goldfield, was a passenger on the north bound train from Goldfield yesterday morning. He is bound for Golden Circle, about forty miles north of Winnemucca.

The merry hunters from Independence, California, returned last night with some guns, some ammunition and no ducks. In the party were Tom Risch, Tom Kendall, Billy Douglass, Cal Shaw, Col. Charles Sawyer and Puddy Grimes.

Don B. Gillies, president of the Tonopah Extension and the Montgomery Shoshone, leaves this morning for the coast, going by way of Beatty, where he will make a short visit to the Shoshone. He will be gone for about two weeks.

SECOND OF THE ASSEMBLY DANCES

COMMITTEE HAS PLAN WHICH LEAVES TIED UP FUNDS INTACT.

The second of the series of the Assembly dances will be given on Friday, the regular date, notwithstanding that the funds of the Assembly are tied up in the State Bank and Trust Company. It is provoking that the funds should be tied up, but the committee has fixed upon a plan which will leave the funds still intact, and permit the dancers to make merry.

It is proposed that each member put up \$2.50 for the privilege of the floor for himself and ladies, and the committee are now busy collecting the money with gratifying results. If the plan succeeds, and there is no doubt that it will, the Assembly will be enabled to keep up the series. Any member can obtain cards of admission for himself and ladies from the committee, which is composed of Messrs. S. R. Moore, H. S. Crockett, Wm. Hunter, W. B. Alexander and E. R. North. It is to be hoped that the members will avail themselves of the opportunity, and not permit the series to lapse, for the winter is coming and what would the winter be without the Assembly dances.

SCHMITZ PICKS MCCARTHY.
SAN FRANCISCO, Nov. 5.—Former Mayor Schmitz, under sentence on conviction for extortion, when queried at the county jail this morning, gave these as his election views: "I believe that McCarthy will be elected by from 3000 to 5000 plurality (McCarthy himself proclaiming victory by a majority of from 13,000 to 15,000). No, I cannot say that I expect the entire union labor ticket to win. As between McGowan and Langdon it looks to be an even break. The bitterest fight is on the district attorneyship and I would not wager any money on the outcome of that issue. This is the most difficult election to prognosticate San Francisco ever held."

TO SHIP BULLION FROM THE LIBERTY

CYANIDE PLANT ADDED TO THE MILL WILL KEEP THINGS HUMMING.

Robert G. Griswold, general manager of the Tonopah Liberty Mining Company, was in from the mine yesterday, and reports most flattering progress in the way of development and in the working of the mill.

"We are working the mill with three shifts," said he, "and we keep going day and night. Splendid progress is being made with the mine, and as fast as we lay off surface men, we are obliged to put on men in the mine. The veins widen with depth, and increase in value, and we are saving a most satisfactory percentage of the values in the mill. A cyanide plant will be added to the latter, and we hope to be able in time to ship the bullion instead of the concentrates. This will not only produce the ready money, but will effect a saving in the shipment of the concentrates."

"There is some work going on on the Callington mine about a mile beyond us, and the district all around is looking very well."

SUNDAY MORNING PRESENT.

The wife of Ed. Kennedy presented him with a bouncing baby girl weighing seven pounds, on Sunday morning. Mother and daughter, at last accounts, were doing very well.

SCHWAB'S MANAGER TALKS ON SCHWAB

INTERVIEW WITH OLIVER WREN AND NICE THINGS ABOUT NEVADA.

The trouble started by Charles M. Schwab when he began to get himself interviewed is not yet over. They are talking about it in the East. Oliver Wren, Schwab's manager, who was here only a short time ago, is in New York and was there interviewed by the correspondent of the Pittsburgh Gazette, from which the following is taken:

The report has been widely circulated from San Francisco that Charles M. Schwab, while recently on the coast, made certain adverse criticisms of Nevada and the men who introduced Nevada mines in the East. Your correspondent is authorized to deny the report as unfounded by Oliver Wren, who has been the manager of Mr. Schwab's affairs for years. In the absence of his principal from his office, Mr. Wren said:

"Whatever foundation there is in the report is contained in a chance remark which Mr. Schwab made to the effect that it was a pity that the hopes which we have had for our mines and the promises we have made to our friends concerning them have not yet come to fruition. That our hopes have been slower in being realized than we expected is no fault of the mines nor the engineers on whose reports they were purchased. But Mr. Schwab's remark was twisted into a meaning entirely foreign to his thought and was interpreted to mean a charge of misrepresentation on the part of those who recommended their purchase."

"Mr. Schwab's relation with both Donald B. Gillies and Malcolm L. Macdonald are most cordial and he is

greatly pained to hear that any one has so contorted his statement to make it appear a criticism of either one of these gentlemen.

"And why should Mr. Schwab express any dissatisfaction with the market prices of the stocks to say nothing of prospective values of other properties which is immense."

"He has put his money into the Shoshone, which, while the work of putting it on a productive basis has been met by many delays, is now approaching the point where it should give a good report of itself. The mill is running in good shape and we are assured of a steady supply of electric power for it through the winter."

Mr. Wren expressed the utmost satisfaction that the company was secure in respect to power, which has been one of the greatest difficulties to overcome and about which some apprehension had been felt in regard to the plant of the power company being tied up by labor strikes. During the trip which Mr. Wren has just made to Nevada he inspected the Shoshone mill and both the Schwab mines. He made a personal investigation of the labor situation of the power company and found all danger of labor trouble, to all appearances, a thing of the past.
